POT OF GOLD

This program, called the "Pot of Gold" or the \$5 Gimmick, began in the Netherlands in 1997 and came to the states in 1998. Designed by JISL (Jilly International Services Limited) this cash generating system has now more than 500,000 worldwide participants from over 170 countries. When a program with a one time minimum cost of \$5 has the ability to pay out up to \$35k per month with a self-funding International ATM card, you have a program that everybody wants to JOIN.

Since it costs so little to enter, it naturally also takes longer for this program to produce some earnings of substance. So don't get impatient and give up if not much happening during the first 6 months or possibly longer. Once the money starts trickling into your ATM account, it will so that on a regular basis, and it will keep increasing.
