

The Captain's Treasure Chest

The Fastest Way To YOUR Treasure Starts Here

Get Onboard

Please let me introduce myself. My name is Tom Charles. I just retired from a Fortune 500 company that I have been with for 35 years, and doing mail order for 20 years on the side. The LAST BIG THING I did in mail order was represent a nutritional product and built a down-line in the THOUSANDS only to have the company go belly-up. All that hard work for nothing. One good thing that came out of it was I was building a database of over one **MILLION** potential strong buyers leads. **THESE LEADS ARE NOT FOR SALE** but will be used to help our members make a lot of money. I am so sick of the products coming and going within a year, or seeing programs that do not even offer a legitimate product – and if they do, it has little or no value to it.

Our product has great value and is here to stay – guaranteed.

I built a small team of experienced professionals called The Silver Eagle Group. This group will be handling and processing orders, answering any questions you may have, sending payments and products to our members, and most important of all, **MASS MAILING for our members to get each new member 5 people under them.** We have the proper equipment, printing machines, folding machines, etc., plus the manpower to handle everything properly.

Please keep in mind this very important fact that a lot of people overlook. Even though The Silver Eagle Group will do all the recruiting for you, **you will receive MUCH MORE MONEY** and Silver Eagle Coins if you put forth the effort as well. The experienced networker knows this and will mail it along with us, generating twice as much money or more – faster! Think of it like this: Regardless if you recruit 2, 4, 10, or however many, we will mail for that person until they have 5 people under them and **YOUR NAME** will be on position 2 on those new leads. This is on top of the 5 we will get **FOR YOU** automatically when you join.

We know the cost of postage is a big concern in mail order, and stops people from mailing and enjoying the fun of this business. Mr. Charles found a solution – so the members can enjoy mailing more and receiving more money and Silver Eagle Coins. In Position 2, you will receive a bonus of 50 First Class Stamps EVERY TIME. That will add up to hundreds, even thousands, of stamps in no-time – which keeps you mailing continuously if you choose to. The stamps are yours to do whatever you want with them.

Ready To Start Making Money?

The Captain's Treasure Chest

If it feels like a lot of money down, remember this – **it's not a purchase, it's an INVESTMENT.** It's designed so that you can recoup your initial investment with only 2 new recruits. After that, it's pure profit. Look, it takes money to make money. The trick is finding a wise investment that **brings you more money** – "more Bang for your Buck" – and after 35 years at a Fortune 500 Company I can tell you with absolute certainty **THIS IS A WISE INVESTMENT.**

YOUR MAP TO FINANCIAL FREEDOM STARTS HERE

Initial Investment is only \$275 and 100 first class US stamps. **You will start in position 1.**

We mail until we get you 5

- First immediate return (position 1) \$500 and 5 Silver Eagle Coins. **Imagine if you mailed and got 5 or more people. That's over \$1200 in cash and silver bullion in position 1 alone!**
- Follow-up return (position 2) **\$5,000 and 5000 stamps**
- Wrap-up profit return (position 3) **\$25,000 and 1000 Silver Eagle Coins**

If you choose to mail, the total payout can be **over \$60,000** or more – the potential is truly unlimited!!

For security reasons, we recommend wrapping the contents in a blank sheet of paper or using security envelopes, so its contents can not be seen through the envelope. Any bounced checks, either to us or to our members, will cause you to be removed permanently from our program without refund.

YOUR PRODUCT: In position 1 and 3, EVERY TIME, you will receive an American Eagle Silver Uncirculated Coin. These coins are congressionally authorized and produced by the United States Mint. Don't confuse these coins with other "Liberty" silver rounds or "silver trade units" produced by private mints. These are the genuine article produced by the U.S. Mint at West Point, New York and are legal tender coins with a face value of one dollar. Interestingly, the Mint does not sell "regular-bullion-issue" uncirculated American Eagle Silver Dollars directly to the public. Instead, the Mint distributes the coins through a network of wholesalers, investment companies, precious metal firms, and independent coin dealers such as The Silver Eagle Group. The price of silver fluctuates week by week.
